

Program Name	Program Description	Program Link	Contact Info
Horry Electric Cooperative - Business	No business energy efficiency programs available.		
Business Energy Investment Tax Credit	Tax credit for solar, geothermal, wind, municipal solid waste, combined heat & power, fuel cells, tidal, and microturbine projects. Projects placed in service before December 31, 2022 will qualify for a tax credit based on 26% of the installed cost. Projects placed in service before December 31, 2024 will qualify for a 22% tax credit, before permanently dropping to 10%. Projects started before the end of 2024 and placed in service before the end of 2026 will also be eligible for a 22% tax credit.	https://programs.dsireusa.org/system/program/detail/658/business-energy-investment-tax-credit-itc	
Clemson University Industrial Assessment Center	The Industrial Assessment Center provides energy assessments to manufacturers who are small and medium-sized enterprises within a 150 mile radius of Clemson's campuses in upstate and coastal South Carolina.	https://cecas.clemson.edu/iac/	864-656-3529 IACClemson@lists.clemson.edu
Energy Star Tax Credits for Home Builders	Tax credits of up to \$2,000 for builders of new energy-efficient single family and manufactured homes. The tax credit is available for homes built /manufactured in the United States between January 1, 2018, and December 31, 2020.	https://www.energystar.gov/about/federal_tax_credits/federal_tax_credit_archives/tax_credits_home_builders	
Energy Star Tax Deductions for Commercial Buildings	A tax deduction of up to \$1.80 per square foot is available to owners or designers of commercial buildings or systems that save at least 50% of the heating and cooling energy as compared to ASHRAE Standard 90.1-2007 (or 90.1-2001 for buildings or systems placed in service before January 1, 2018). The deduction is available for buildings or systems placed in service after December 31, 2017 through December 31, 2020. Partial deductions of up to \$.60 per square foot can be taken for measures affecting any one of three building systems: the building envelope, lighting, or heating and cooling systems.	https://www.energystar.gov/about/federal_tax_credits/federal_tax_credit_archive/tax_credits_commercial_buildings	
Federal Grant Opportunities	The federal government's website, grants.gov, is a centralized location for grant seekers to find and apply for federal funding opportunities.	https://www.grants.gov/web/grants	1-800-518-4726 support@grants.gov

<p>Patagonia Environmental Grants</p>	<p>This grant opportunity is available to small organizations working to protect the environment. Projects must be action-oriented, build public involvement and support, be strategic, focus on root causes, and accomplish specific goals and objectives. One proposal per group will be accepted each fiscal year (May 1–April 30), and the funding amount will range \$5,000 to \$20,000. Deadline for applications is April 30 of each year.</p>	<p>https://www.patagonia.com/how-we-fund</p>	<p>grants@patagonia.com</p>
<p>SC Alternative Fueling Infrastructure Tax Credit</p>	<p>An income tax credit is available for 25% of the cost to purchase, construct, and install qualified alternative fueling infrastructure.</p>	<p>https://afdc.energy.gov/laws/11720</p>	<p>1-844-898-8542 taxcredits@dor.sc.gov</p>
<p>SC Battery Manufacturing Tax Incentive</p>	<p>For taxation purposes, the taxable fair market value of manufacturing machinery and equipment purchased for use at a renewable energy manufacturing facility may be reduced by 20% of the original cost.</p>	<p>https://afdc.energy.gov/laws/8560</p>	<p>1-844-898-8542 taxcredits@dor.sc.gov</p>
<p>SC Clean Energy Tax Credit</p>	<p>SC SECTION 12-6-3588 The business or corporation shall: (1) manufacture clean energy systems or components in South Carolina for solar, wind, geothermal, or other clean energy uses in order to be eligible for the tax credit authorized by this section; (2) invest at least fifty million dollars in a Tier IV county, at least one hundred million dollars in a Tier III county, at least one hundred fifty million dollars in a Tier II county, and at least two hundred million dollars in a Tier I county according to the county ranking and designation system as provided pursuant to Section 12-6-3360(B) in the year the tax credit is claimed in new qualifying plant and equipment; and (3) have created at least one full-time job for every one million dollars of capital investment qualifying for the credit that each pays at least one hundred twenty-five percent of this state's average annual median wage as defined by the Department of Commerce.</p>	<p>https://dor.sc.gov/forms-site/Forms/TC54A_2017.pdf</p>	
<p>SC Department of Health and Environmental Control (DHEC) Diesel Emissions Reduction Act (DERA) Grant</p>	<p>Diesel emissions make up a significant portion of the mobile source air pollution in South Carolina. The U.S. Environmental Protection Agency (EPA) administers four components of the DERA grants through its National Clean Diesel Campaign. Please visit the Southeast Diesel Collaborative's website for more information on these grant opportunities and clean diesel strategies. This group is a partnership between leaders from federal, state and local government, the private sector and other stakeholders in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee.</p>	<p>https://www.scdhec.gov/dera</p>	<p>Sam Christmus 803-898-0717 christsw@dhec.sc.gov</p>

<p>SC Energy Efficiency Revolving Loan Program</p>	<p>The Energy Efficiency Revolving Loan (EERL) program was established through the US Department of Energy/ Energy Office using “stimulus” funding. It is administered by the Business Development Corporation (BDC). The purpose of the loan fund is to enable business and industry to save money by saving energy. The fund is also open to other entities including utilities and government agencies.</p>	<p>https://www.businessdevelopment.org/eerl.html</p>	<p>Brian Hofferth 803-744-0311</p>
<p>SC Energy Efficiency Revolving Loan Program - AFV</p>	<p>The South Carolina Business Development Corporation (BDC) provides low interest loans for a variety of energy efficiency improvements, including AFV conversions and incremental costs, with qualified project payback periods.</p>	<p>http://www.businessdevelopment.org/eerl.html</p>	<p>Brian Hofferth 803-744-0311</p>
<p>SC ETC-40 Ethanol or Biodiesel Production Credit</p>	<p>Per Section 12-6-3600, Subsection (C), Beginning January 1, 2017, a new facility, a facility which has not received credits before 2017, or the expansion of the capacity of an existing facility by at least two million gallons for new production, before denaturing is eligible to receive a 7 ½ cent a gallon credit against the tax imposed. The amount of 7 ½ cent a gallon of ethanol or biodiesel produced for a period up to 36 months consecutively can be claimed for credit. Not more than 10 million gallons of ethanol or biodiesel produced annually and 30 million gallons by the end of a 36-month period. For expansion of the capacity of an existing facility, refer back to Code 12-6-3600 Subsection (C)(3) for eligibility requirements.</p>	<p>http://www.energy.sc.gov/files/ETC-40%202018.pdf</p>	<p>803-898-5711</p>
<p>SC ETC-50 Biomass Resource Credit</p>	<p>For tax years ending before 2020, a taxpayer may apply for certification of a nonrefundable credit against corporate income tax and license fees for 25% of the costs incurred by the taxpayer for the purchase and installation of equipment used to create heat, power, steam, electricity or another form of energy for commercial use from a fuel consisting of no less than 90% biomass resource. A taxpayer may use up to \$650,000 of credit for a single tax year. Unused credit may be carried forward for 15 years</p>	<p>http://energy.sc.gov/incentives/tax</p>	<p>803-898-5713</p>
<p>SC Housing Small Rental Development Program (SRDP)</p>	<p>SC Housing's SRDP incentive program provides funding for rental property builders. The application period opens each spring. Applications are evaluated on a 100 point scale. Applications that include a green component (e.g. LEED) will receive an additional 5 points.</p>	<p>https://www.schousing.com/Home/SmallRentalDevelopmentProgram</p>	<p>CommunityDevelopmentPrograms@schousing.com</p>
<p>SC Idle Reduction Weight Exemption</p>	<p>Any motor vehicle or combination of vehicles equipped with idle reduction technology is allowed to exceed the maximum gross vehicle and axle weight limits by up to 550 pounds to compensate for the added weight of the idle reduction technology.</p>	<p>https://afdc.energy.gov/fuels/laws/IR?state=sc</p>	

SC Natural Gas Vehicle (NGV) Weight Exemption	A vehicle powered primarily by natural gas may exceed the state's gross, single axle, tandem axle, or bridge formula weight limits by an amount equal to the difference of the weight of the natural gas tank and fueling system and the weight of a comparable diesel tank and fueling system, up to 2,000 pounds.	https://afdc.energy.gov/laws/11843	
SC Solar Energy Property Tax Credit	SC Code SECTION 12-6-3775 A taxpayer is allowed an income tax credit equal to twenty-five percent of the cost, including the cost of installation, of a solar energy property if he constructs, purchases, or leases a solar energy property that is located in the State of South Carolina and if: (a) the property is located on: (i) the Environmental Protection Agency's National Priority List; (ii) the Environmental Protection Agency's National Priority List Equivalent Sites; (iii) a list of related removal actions, as certified by the Department of Health and Environmental Control; (iv) land that is subject to a Voluntary Cleanup Contract with the Department of Health and Environmental Control as of December 31, 2017 or to corrective action under the Federal Resource Conservation and Recovery Act of 1976; or (v) land that is owned by the Pinewood Site Custodial Trust; and (b) he places it in service in this State during the taxable year.	https://dor.sc.gov/forms-site/Forms/TC58.pdf	
SC Solar, Small Hydropower, and Geothermal Tax Credit - Business	25% of total system cost up to \$35,000. Can only take \$3,500 or 50% of your tax liability per year for up to 10 years.	http://www.energy.sc.gov/lpage?m=701	803-898-5710
South Carolina Agricultural Energy Audit Program	Electric Cooperative members receive discounted energy audits to assess your farm's energy efficiency, identify potential conservation projects, and access funding for equipment upgrades. Each energy audit also includes a detailed inventory of your current equipment and an analysis of your energy usage by farm activity.	https://www.yorkelectric.net/my-service/my-business/south-carolina-agricultural-energy-audit-program/	800-732-1399
US Department of Energy EERE Funding Opportunity Exchange	US Department of Energy Energy Efficiency and Renewable Energy (EERE) funding opportunities website. This site lists all of the funding opportunities available through EERE.	https://eere-exchange.energy.gov	
USDA Rural Energy for America Program	The Rural Energy for America Program (REAP) provides financial assistance to agricultural producers and rural small businesses in rural America to purchase, install, and construct renewable energy systems; make energy efficiency improvements to non-residential buildings and facilities; use renewable technologies that reduce energy consumption; and participate in energy audits and renewable energy development assistance.	https://www.rd.usda.gov/programs-services/rural-energy-america-program-renewable-energy-systems-energy-efficiency	Debbie S. Turbeville 803-765-5163

<p>SC DHEC State Revolving Loan Fund</p>	<p>The State Revolving Fund (SRF) program provides low-interest rate loans for building or repair to wastewater and drinking water plants or distribution systems and stormwater quality improvement projects. Projects that reduce energy use can use this program. The program is run by the SC Department of Health and Environmental Control (DHEC) and the SC Rural Infrastructure Authority (RIA), Office of Local Government (OLG).</p>	<p>https://www.scdhec.gov/environment/businesses-communities-go-green/environmental-loans-grants-businesses-communities/state</p>	<p>gormancm@dhec.sc.gov</p>
<p>SC Energy Efficiency Revolving Loan Program</p>	<p>The Energy Efficiency Revolving Loan (EERL) program was established through the US Department of Energy/ Energy Office using "stimulus" funding. It is administered by the Business Development Corporation (BDC). The purpose of the loan fund is to enable business and industry to save money by saving energy. The fund is also open to other entities including utilities and government agencies.</p>	<p>https://www.businessdevelopment.org/eeerl.html</p>	<p>Brian Hofferth 803-744-0311</p>

<p>SC Energy Efficiency Revolving Loan Program - AFV</p>	<p>The South Carolina Business Development Corporation (BDC) provides low interest loans for a variety of energy efficiency improvements, including AFV conversions and incremental costs, with qualified project payback periods.</p>	<p>http://www.businessdevelopment.org/eerl.html</p>	<p>Brian Hofferth 803-744-0311</p>
<p>SC Energy Office ConserFund Loan Program</p>	<p>ConserFund is a revolving loan program administered by the Energy Office for energy-efficiency improvements in state agencies, public colleges or universities, school districts, local governments, and 501 (c)(3) organizations. The loan program is focused on supporting the implementation of energy-efficient improvements that provide long-term cost reductions and energy savings.</p>	<p>http://www.energy.sc.gov/incentives/conserfund</p>	<p>Stacey Washington 803-737-0804 swashington@ors.sc.gov</p>
<p>SC Energy Office ConserFund Loan Program AFV</p>	<p>The South Carolina Energy Office (SCEO) provides low interest loans for a variety of energy efficiency improvements, including AFV conversions and incremental costs, with qualified project payback periods.</p>	<p>http://www.energy.sc.gov/incentives/conserfund</p>	<p>Stacey Washington 803-737-0804 swashington@ors.sc.gov</p>
<p>SC Energy Office ConserFund Plus Loan/Grant Program</p>	<p>ConserFund Plus is a revolving loan program with a 30% grant component. The loans may be used for energy efficiency retrofits and renewable or alternative energy projects with an appropriate payback.</p>	<p>http://www.energy.sc.gov/incentives/cplus</p>	<p>Stacey Washington 803-737-0804 swashington@ors.sc.gov</p>
<p>SC Energy Office Mini-Grant Program</p>	<p>The US Department of Energy has awarded funding to the SC Office of Regulatory Staff (ORS) Energy Office (EO), to fund several high-impact demonstration projects in the areas of energy efficiency, renewable energy, and alternative fuels.</p>	<p>http://www.energy.sc.gov/incentives/grants</p>	<p>Rick Campana 803-737-5229 rcampana@ors.sc.gov</p>
<p>SC Housing Small Rental Development Program (SRDP)</p>	<p>SC Housing's SRDP incentive program provides funding for rental property builders. The application period opens each spring. Applications are evaluated on a 100 point scale. Applications that include a green component (e.g. LEED) will receive an additional 5 points.</p>	<p>https://www.schousing.com/Home/SmallRentalDevelopmentProgram</p>	<p>CommunityDevelopmentPrograms@schousing.com</p>
<p>SC Idle Reduction Weight Exemption</p>	<p>Any motor vehicle or combination of vehicles equipped with idle reduction technology is allowed to exceed the maximum gross vehicle and axle weight limits by up to 550 pounds to compensate for the added weight of the idle reduction technology.</p>	<p>https://afdc.energy.gov/fuels/laws/IR?state=sc</p>	

<p>SC Natural Gas Vehicle (NGV) Weight Exemption</p>	<p>A vehicle powered primarily by natural gas may exceed the state's gross, single axle, tandem axle, or bridge formula weight limits by an amount equal to the difference of the weight of the natural gas tank and fueling system and the weight of a comparable diesel tank and fueling system, up to 2,000 pounds.</p>	<p>https://afdc.energy.gov/laws/11843</p>	
<p>SC Solar Energy Property Tax Credit</p>	<p>SC Code SECTION 12-6-3775 A taxpayer is allowed an income tax credit equal to twenty-five percent of the cost, including the cost of installation, of a solar energy property if he constructs, purchases, or leases a solar energy property that is located in the State of South Carolina and if: (a) the property is located on: (i) the Environmental Protection Agency's National Priority List; (ii) the Environmental Protection Agency's National Priority List Equivalent Sites; (iii) a list of related removal actions, as certified by the Department of Health and Environmental Control; (iv) land that is subject to a Voluntary Cleanup Contract with the Department of Health and Environmental Control as of December 31, 2017 or to corrective action under the Federal Resource Conservation and Recovery Act of 1976; or (v) land that is owned by the Pinewood Site Custodial Trust; and (b) he places it in service in this State during the taxable year.</p>	<p>https://dor.sc.gov/forms-site/Forms/TC58.pdf</p>	
<p>SC Treasurer's Office Master Lease Program</p>	<p>The State Treasurer's Office Master Lease Program provides cost-effective financing arrangements to South Carolina's state agencies, colleges and universities for the purpose of acquiring equipment needed to effectively improve and execute services on behalf of the State.</p>	<p>https://treasurer.sc.gov/what-we-do/for-governments/bond-and-debt-information/master-lease-program</p>	<p>Kevin Kibler 803-734-1391 kevin.kibler@sto.sc.gov</p>
<p>South Carolina Agricultural Energy Audit Program</p>	<p>Electric Cooperative members receive discounted energy audits to assess your farm's energy efficiency, identify potential conservation projects, and access funding for equipment upgrades. Each energy audit also includes a detailed inventory of your current equipment and an analysis of your energy usage by farm activity.</p>	<p>https://www.yorkelectric.net/my-service/my-business/south-carolina-agricultural-energy-audit-program/</p>	<p>800-732-1399</p>
<p>US Department of Energy EERE Funding Opportunity Exchange</p>	<p>US Department of Energy Energy Efficiency and Renewable Energy (EERE) funding opportunities website. This site lists all of the funding opportunities available through EERE.</p>	<p>https://eere-exchange.energy.gov</p>	
<p>US Department of Transportation - Transportation Infrastructure Finance and Innovation Act (TIFIA) Financing Program</p>	<p>The Fixing America's Surface Transportation (FAST) Act authorizes \$1.435 billion in capital over 5 years for the TIFIA credit assistance program; assistance supports critical infrastructure projects with national or regional significance. Letters of interest may be submitted by states and cities for direct loans, loan guarantees, and standby lines of credit. Transit-oriented development (including pedestrian and cycle facilities) and other projects may be eligible for assistance.</p>	<p>https://www.transportation.gov/buildamerica/financing/tifia</p>	<p>202-366-2300 BuildAmerica@dot.gov</p>

US Department of Transportation BUILD Discretionary Grants	The Better Utilizing Investments to Leverage Development (BUILD) Transportation Discretionary Grants program funds investments in transportation infrastructure, including transit.	https://www.transportation.gov/BUILDgrants	202-366-0301 BUILDgrants@dot.gov
US Department of Transportation Low or No Emission Vehicle Program	The Low or No Emission competitive program provides funding to state and local governmental authorities for the purchase or lease of zero-emission and low-emission transit buses as well as acquisition, construction, and leasing of required supporting facilities.	https://www.transit.dot.gov/funding/grants/lowno	202-366-2053
US Department of Transportation Railroad Rehabilitation & Improvement Finance Loans	Program funds are used to acquire, improve, or rehabilitate intermodal facilities, refinance outstanding debt, and develop new intermodal facilities. Direct loans can fund up to 100% of a railroad project with repayment periods of up to 35 years and interest rates equal to the cost of borrowing to the government. Priority is given to projects that provide public benefits, including benefits to public safety, the environment (including air quality), and economic development.	https://www.transportation.gov/buildamerica/financing/rrif/railroad-rehabilitation-improvement-financing-rrif	202-366-2300 BuildAmerica@dot.gov
US Department of Transportation State of Good Repair Program	Provides capital assistance for maintenance, replacement, and rehabilitation projects of high-intensity fixed guideway and bus systems to help transit agencies maintain assets in a state of good repair and to support the development and implementation of transit asset management plans. Eligible recipients are state and local governments in urbanized areas (UZAs) with fixed guideway and high intensity motorbus systems in revenue service for at least 7 years.	https://www.transit.dot.gov/funding/grants/state-good-repair-grants-5337	202-366-2053
US Federal Highway Administration Congestion Mitigation and Air Quality Improvement Program	Provides formula grant funding to nonattainment and maintenance areas for ozone, carbon monoxide, and/or particulate matter. States that have no nonattainment or maintenance areas still receive a minimum amount of funding for air quality projects or other elements of flexible spending.	https://www.fhwa.dot.gov/environment/air_quality/cmaq	
USDA Community Facilities Guaranteed Loan Program	This program provides loan guarantees to eligible lenders to develop essential community facilities in rural areas.	https://www.rd.usda.gov/programs-services/community-facilities-guaranteed-loan-program	

<p>USDA Community Facilities Technical Assistance and Training Grant</p>	<p>The USDA will make grants to public bodies and private nonprofit corporations, (such as States, counties, cities, townships, and incorporated towns and villages, boroughs, authorities, districts, and Indian tribes on Federal and State reservations) to provide associations Technical Assistance and/or training with respect to essential community facilities programs. The Technical Assistance and/or training will assist communities, Indian Tribes, and Nonprofit Corporations to identify and plan for community facility needs that exist in their area. Once those needs have been identified, the Grantee can assist in identifying public and private resources to finance those identified community facility needs.</p>	<p>https://www.rd.usda.gov/programs-services/community-facilities-technical-assistance-and-training-grant</p>	<p>Michele Cardwell 803-253-3645 michele.cardwell@usda.gov</p>

Program Name	Program Description	Program Link	Contact Info
Horry Electric Cooperative - Business	No business energy efficiency programs available.		
Business Energy Investment Tax Credit	Tax credit for solar, geothermal, wind, municipal solid waste, combined heat & power, fuel cells, tidal, and microturbine projects. Projects placed in service before December 31, 2022 will qualify for a tax credit based on 26% of the installed cost. Projects placed in service before December 31, 2024 will qualify for a 22% tax credit, before permanently dropping to 10%. Projects started before the end of 2024 and placed in service before the end of 2026 will also be eligible for a 22% tax credit.	https://programs.dsireusa.org/system/program/detail/658/business-energy-investment-tax-credit-itc	
Energy Star Tax Credits for Home Builders	Tax credits of up to \$2,000 for builders of new energy-efficient single family and manufactured homes. The tax credit is available for homes built /manufactured in the United States between January 1, 2018, and December 31, 2020.	https://www.energystar.gov/about/federal_tax_credits/federal_tax_credit_archives/tax_credits_home_builders	
Federal Grant Opportunities	The federal government's website, grants.gov, is a centralized location for grant seekers to find and apply for federal funding opportunities.	https://www.grants.gov/web/grants	1-800-518-4726 support@grants.gov
Patagonia Environmental Grants	This grant opportunity is available to small organizations working to protect the environment. Projects must be action-oriented, build public involvement and support, be strategic, focus on root causes, and accomplish specific goals and objectives. One proposal per group will be accepted each fiscal year (May 1–April 30), and the funding amount will range \$5,000 to \$20,000. Deadline for applications is April 30 of each year.	https://www.patagonia.com/how-we-fund	grants@patagonia.com
People for Bikes Grant Program	This grant program supports bicycle infrastructure projects that make it easier and safer for people of all ages and abilities to ride. The program has a two grant cycles yearly.	https://peopleforbikes.org/apply-now	303-449-4893 info@peopleforbikes.org

Propane Education & Research Council Incentives	The Propane Education & Research Council provides several incentive programs for select propane applications to stimulate purchases, encourage product improvements, and establish wider familiarity of new products.	https://propane.com/about/working-with-perc/incentive-programs	202-452-8975
SC Energy Efficiency Revolving Loan Program	The Energy Efficiency Revolving Loan (EERL) program was established through the US Department of Energy/ Energy Office using "stimulus" funding. It is administered by the Business Development Corporation (BDC). The purpose of the loan fund is to enable business and industry to save money by saving energy. The fund is also open to other entities including utilities and government agencies.	https://www.businessdevelopment.org/eerl.html	Brian Hofferth 803-744-0311
SC Energy Efficiency Revolving Loan Program - AFV	The South Carolina Business Development Corporation (BDC) provides low interest loans for a variety of energy efficiency improvements, including AFV conversions and incremental costs, with qualified project payback periods.	http://www.businessdevelopment.org/eerl.html	Brian Hofferth 803-744-0311
SC Energy Office ConserFund Loan Program	ConserFund is a revolving loan program administered by the Energy Office for energy-efficiency improvements in state agencies, public colleges or universities, school districts, local governments, and 501 (c)(3) organizations. The loan program is focused on supporting the implementation of energy-efficient improvements that provide long-term cost reductions and energy savings.	http://www.energy.sc.gov/incentives/conserfund	Stacey Washington 803-737-0804 swashington@ors.sc.gov
SC Energy Office ConserFund Loan Program AFV	The South Carolina Energy Office (SCEO) provides low interest loans for a variety of energy efficiency improvements, including AFV conversions and incremental costs, with qualified project payback periods.	http://www.energy.sc.gov/incentives/conserfund	Stacey Washington 803-737-0804 swashington@ors.sc.gov
SC Energy Office Mini-Grant Program	The US Department of Energy has awarded funding to the SC Office of Regulatory Staff (ORS) Energy Office (EO), to fund several high-impact demonstration projects in the areas of energy efficiency, renewable energy, and alternative fuels.	http://www.energy.sc.gov/incentives/grants	Rick Campana 803-737-5229 rcampana@ors.sc.gov
SC Housing Small Rental Development Program (SRDP)	SC Housing's SRDP incentive program provides funding for rental property builders. The application period opens each spring. Applications are evaluated on a 100 point scale. Applications that include a green component (e.g. LEED) will receive an additional 5 points.	https://www.schousing.com/Home/SmallRentalDevelopmentProgram	CommunityDevelopmentPrograms@schousing.com

SC Idle Reduction Weight Exemption	Any motor vehicle or combination of vehicles equipped with idle reduction technology is allowed to exceed the maximum gross vehicle and axle weight limits by up to 550 pounds to compensate for the added weight of the idle reduction technology.	https://afdc.energy.gov/fuels/laws/IR?state=sc	
SC Natural Gas Vehicle (NGV) Weight Exemption	A vehicle powered primarily by natural gas may exceed the state's gross, single axle, tandem axle, or bridge formula weight limits by an amount equal to the difference of the weight of the natural gas tank and fueling system and the weight of a comparable diesel tank and fueling system, up to 2,000 pounds.	https://afdc.energy.gov/laws/11843	
SC Solar Energy Property Tax Credit	SC Code SECTION 12-6-3775 A taxpayer is allowed an income tax credit equal to twenty-five percent of the cost, including the cost of installation, of a solar energy property if he constructs, purchases, or leases a solar energy property that is located in the State of South Carolina and if: (a) the property is located on: (i) the Environmental Protection Agency's National Priority List; (ii) the Environmental Protection Agency's National Priority List Equivalent Sites; (iii) a list of related removal actions, as certified by the Department of Health and Environmental Control; (iv) land that is subject to a Voluntary Cleanup Contract with the Department of Health and Environmental Control as of December 31, 2017 or to corrective action under the Federal Resource Conservation and Recovery Act of 1976; or (v) land that is owned by the Pinewood Site Custodial Trust; and (b) he places it in service in this State during the taxable year.	https://dor.sc.gov/forms-site/Forms/TC58.pdf	
South Carolina Agricultural Energy Audit Program	Electric Cooperative members receive discounted energy audits to assess your farm's energy efficiency, identify potential conservation projects, and access funding for equipment upgrades. Each energy audit also includes a detailed inventory of your current equipment and an analysis of your energy usage by farm activity.	https://www.yorkelectric.net/my-service/my-business/south-carolina-agricultural-energy-audit-program/	800-732-1399
US Department of Energy EERE Funding Opportunity Exchange	US Department of Energy Energy Efficiency and Renewable Energy (EERE) funding opportunities website. This site lists all of the funding opportunities available through EERE.	https://eere-exchange.energy.gov	
US Department of Transportation BUILD Discretionary Grants	The Better Utilizing Investments to Leverage Development (BUILD) Transportation Discretionary Grants program funds investments in transportation infrastructure, including transit.	https://www.transportation.gov/BUILDgrants	202-366-0301 BUILDgrants@dot.gov
US Department of Transportation	Program funds are used to acquire, improve, or rehabilitate intermodal facilities, refinance outstanding debt, and develop new intermodal facilities. Direct loans can fund up to 100% of a	https://www.transportation.gov/buildamerica	202-366-2300

Railroad Rehabilitation & Improvement Finance Loans	railroad project with repayment periods of up to 35 years and interest rates equal to the cost of borrowing to the government. Priority is given to projects that provide public benefits, including benefits to public safety, the environment (including air quality), and economic development.	/financing/rrif/railroad-rehabilitation-improvement-financing-rrif	BuildAmerica@dot.gov
US Federal Highway Administration Congestion Mitigation and Air Quality Improvement Program	Provides formula grant funding to nonattainment and maintenance areas for ozone, carbon monoxide, and/or particulate matter. States that have no nonattainment or maintenance areas still receive a minimum amount of funding for air quality projects or other elements of flexible spending.	https://www.fhwa.dot.gov/environment/air_quality/cmaq	
USDA Community Facilities Guaranteed Loan Program	This program provides loan guarantees to eligible lenders to develop essential community facilities in rural areas.	https://www.rd.usda.gov/programs-services/community-facilities-guaranteed-loan-program	
USDA Rural Energy for America Program	The Rural Energy for America Program (REAP) provides financial assistance to agricultural producers and rural small businesses in rural America to purchase, install, and construct renewable energy systems; make energy efficiency improvements to non-residential buildings and facilities; use renewable technologies that reduce energy consumption; and participate in energy audits and renewable energy development assistance.	https://www.rd.usda.gov/programs-services/rural-energy-america-program-renewable-energy-systems-energy-efficiency	Debbie S. Turbeville 803-765-5163
