Get a \$125 or \$250 refund when you buy your next water heater with Horry Electric's H2O Select® water heater program.

OR choose the free financing option and enjoy no interest or upfront costs.

Sign up for H2O Select and get paid to stay in hot water! Just fill out the attached reply card, agree to meet certain standards and let Horry Electric provide you with safe, reliable service for the next five years. That's all there is to it!

How can we offer these benefits?

A large capacity H2O Select water heater provides plenty of hot water - efficiently and conveniently. And when you heat your water efficiently, that saves Horry Electric money ... and we pass the savings on to you.

How Easy Is Qualifying for H2O Select?

To qualify for H2O Select, just purchase and install a new 50-gallon (minimum) or 80-gallon (minimum) electric water heater that meets co-op approval and agree to purchase your electricity from Horry Electric for the next five years. We'll then inspect your new system and issue you a check. It's that simple. You can also choose the free financing option which lets you pay for your water heater over 12 months - with no interest!

What are my H2O Select options?

- 1. Choose an Horry Electric Cooperative plumbing contractor when you replace an old electric water heater (minimum 50-gallon) and you have the option of no-interest financing. The actual cost of the water heater, plus the labor charges of the plumbing contractor, will be added (interest free) to your Horry Electric bill each month for 12 months.

- 2. Replace or install a new 50-gallon (minimum) electric water heater and receive a \$125 rebate.
- 3. Replace or install a new 80-gallon (minimum) electric water heater and receive a \$250 rebate.

Note: All water heaters must meet minimum efficiency standards.

H2O Select Requirements.

- 1. Water heating systems must have minimum capacity of 50- or 80-gallons and meet ASHRAE 90.1 standards.
- 2. An off-peak load management device, installed by Horry Electric, is required for you to receive money back.
- 3. Work must meet all applicable electrical and plumbing codes.
- 4. Electrical supply wire must be 10-2 AWG with ground, copper wire only and connected to a 30-amp two-pole breaker. Only copper wire will be accepted.
- 5. All dual tank installations must meet Horry Electric specifications.
- 6. No single water heating element may exceed 4,500 watts.
- 7. At the water heater location, install a 30 amp, non-fusible disconnect if the circuit breaker panel is not within sight. A 4 inch square metal junction box with combination 1/2 inch and 3/4 inch knockout slots with a blank cover is acceptable whenever a circuit breaker panel is within sight.

Choosing The Right Tank.

Your Horry Electric representative will help you evaluate your hot water needs based on your home size and family size and will recommend a water heater that

best suits your needs. You get the right amount of hot water storage by using a single, large-capacity tank or by linking two tanks. Your Horry Electric representative will recommend the most cost-effective option.

How To Cash In On H2O Select.

Signing up is easy! You can either:

- 1. Simply fill out and mail the attached reply card and a Horry Electric marketing and energy management representative will contact you at your convenience.
- 2. Or just call Horry Electric and ask to speak to an H2O Select representative.

Participants must agree to participate in the H2O Select program for a minimum of 5 years, using the option and tank size recommended by Horry Electric.

It's As Easy As:

- 1. Contact someone to install your new water heating system, or do it yourself (remembering to keep within all applicable plumbing and electrical codes).
- 2. Let us know when your water heating system is installed.
- 3. We will then inspect the system, install a load management device, then issue a check to you.
- 4. Cash the check we give you and enjoy hot water for years to come.

Applying For H2O Select.

Now that you've decided to save money on your new electric water heater purchase, let Horry Electric tell you more about H2O Select. Just fill out this card, mail it back to Horry Electric and we'll be in touch. Or call us today!

The Touchstone Energy® symbol is your assurance that we're a community-minded cooperative providing high standards of service to customers large and small.
